Don Anh Nguyen
Full Stack Software Engineer

Seattle, WA | donanhnguyenjobsearch@gmail.com | (714) 270-4035 | [LinkedIn](#) [Portfolio](#) [Github](#)

Skills

Javascript (ES6), Typescript, React.js, Ruby, Ruby on Rails, MVC, Redux, Python, PostgreSQL, NoSQL, HTML, CSS, MERN Stack, Node.js, MongoDB, Express.js, Git, Web Development, Front End, Full Stack

Experience

Gibber.chat   **Remote**
Software Engineer Intern   **July 2023 - November 2023**
- Designed and developed sub-conversations within chat rooms on both web and mobile applications, resulting in refined user experience and increased user base.
- Developed the ability to create group chat conversations on mobile Android application using React Native, MongoDB NoSQL database, and Mongoose REST API.
- Took charge of front-end and back-end development by optimizing database models, enhancing UI of chat rooms and messages, and revamping API controllers to improve system performance.
- Partnered closely with the project manager on feature ideas and system improvements.
- Skills: Javascript, React.js, React Native, MongoDB, Express, Node.js, HTML/CSS, NoSQL.

Github Portfolio
Full Stack Software Developer   **January 2022 - November 2023**
- **Nguyenstagram**: Designed and developed full stack photo sharing application utilizing MongoDB database, with base64 image encoding/uploading, notifications tab, and user search bar.
- **Budgeting App**: Architected budget and expense tracker with Ruby on Rails API and PostgreSQL database, utilizing D3.js for pie chart data visualization.
- **HotelStays**: Developed hotel booking application utilizing React UI, MongoDB, and Node.js with dynamic search filter page and hotel rating system
- **LightsaberBay**: Designed and developed shopping application with Rails authentication, PostgreSQL database, and React UI, implementing features such as inventory, purchasing items from marketplace, and add-to-cart checkout.
- **BlackJack**: Developed a fully functional Blackjack game written in vanilla Javascript, HTML, and CSS.

Education

Western Governors University   **2024 - 2025**
Bachelor of Science, Computer Software Engineering
Coursework: Computer Science, Java Programming, Data Structures & Algorithms

University of California, Santa Barbara   **2011 - 2015**
Bachelor of Arts
